The kit suitcase unfolds to define personal space at floor level, ensuring other inhabitants of a public space keep their distance

## Newspaper Screen

Create further private space your personal space by opening the panels of this stand-alone partitioning system disguised as a newspaper.

## People-Watching Periscope

When using the Newspaper Screen, the Periscope allows you to continue watching those around you, should you so desire.

## Ready-Folded Jacket

By positioning the ready folded jacket mold on the seat next to you, you'll be able to discourage others from sitting there.

## Self-ringing Cell

Prerecorded cellphone conversations help you avoid unnecessary interaction with people around you.

## Silent Headphones

These headphones project sound from their outside surface while maintaining silence for the listener. This simulation of listening to loud music has been proved to reduce interactions by up to 65%.
